

# Local Government Declaration on Tobacco Control

## As public health leaders, we acknowledge that:

- Smoking is a leading cause of premature death, disease and disability in our communities;
- Reducing smoking in our communities significantly increases household incomes and benefits the local economy;
- Reducing smoking amongst the most disadvantaged in our communities is the single most important means of reducing health inequalities;
- Smoking is an addiction largely starting in childhood, two thirds of smokers start before the age of 18;
- Smoking is an epidemic created and sustained by the tobacco industry, which promotes uptake of smoking to replace the tens of thousands of people its products kill in England every year; and
- The illicit trade in tobacco funds organised criminal gangs and gives children access to cheap tobacco.

## We welcome the:

- Opportunity for local government to lead local action to tackle smoking and secure the health, welfare, social, economic and environmental benefits that come from reducing smoking prevalence;
- Government's ambition to make England smokefree by 2030 and tackle inequalities in smoking prevalence;
- Commitment by the government to live up to its obligations as a party to the World Health organization's framework convention on Tobacco control (FCTC) and in particular to protect the development of public health policy from the vested interests of the tobacco industry; and
- NHS Long Term Plan commitments to provide all smokers in hospital, pregnant women and long-term users of mental health services with tobacco dependence treatment.

## We commit \_\_\_\_\_ from this date \_\_\_\_\_ to:

- Act at a local level to reduce smoking prevalence and health inequalities, to raise the profile of the harm caused by smoking to our communities and in so doing support delivery of the national smokefree 2030 ambition;
- Develop plans with our partners and local communities to address the causes and impacts of tobacco use;
- Participate in local and regional networks for support;
- Support the government in taking action at national level to help local authorities reduce smoking prevalence and health inequalities in our communities;
- Protect our tobacco control work from the commercial and vested interests of the tobacco industry by not accepting any partnerships, payments, gifts and services, monetary or in kind or research funding offered by the tobacco industry to officials or employees;
- Monitor the progress of our plans against our commitments and publish the results; and
- Publicly declare our commitment to reducing smoking in our communities and to join the Smokefree Action Coalition, the alliance of organisations working to reduce the harm caused by tobacco.

## Signatories:

Leader of Council

Chief Executive

Director of Public Health
