

The Smokefree Great Britain Survey 2020¹ Public Opinion in Yorkshire & the Humber

In 2018, 16.7% of people in Yorkshire & the Humber continued to smoke.² Smoking killed 26,558 people in Yorkshire & the Humber from 2016-18³ and remains the leading cause of preventable illness and premature death in England.⁴

In 2020, Yorkshire & the Humber supported Government action to tackle tobacco

- Three quarters (75%) of adults in Yorkshire & the Humber support activities to limit smoking or think the government could do more
- 7% of adults in Yorkshire & the Humber think the Government is doing too much (4%) or far too much (3%)
- The proportion of adults in Yorkshire & the Humber who think the Government could do more to limit smoking has grown substantially from 26% in 2009⁵ to 44% in 2020
- 74% of people in Yorkshire & the Humber support the Government's ambition to reduce smoking prevalence to 5% or below (fewer than 1 in 20 people) by 2030 with just 7% opposing

What further action should be taken to tackle tobacco?

A levy on tobacco manufacturers

Adults in Yorkshire & the Humber strongly support tobacco manufacturers being required to pay a levy to Government for measures to help smokers quit and prevent young people from taking up smoking. 78% of Yorkshire & the Humber support this, with only 5% opposing it.

Increasing the age of sale from 18 to 21

The majority of adults in Yorkshire & the Humber support increasing the age of sale for tobacco from 18 to 21, with few opposing it. There is good evidence that raising the age of sale of tobacco to 21 will have a substantial positive impact on public health and save lives.⁶

Pack inserts

Well over two thirds (71%) of adults in Yorkshire & the Humber support requiring cigarette packs to include inserts with Government mandated information about quitting, compared to 5% who oppose it. Research from Canada, where pack inserts are used, shows they have been effective in promoting quitting,⁷ whilst UK research shows use of such inserts is supported by smokers diverse in age, gender and social grade.⁸

Yorkshire & the Humber support for cigarette packs to include inserts with Government information about quitting

Smoking in cars

Banning smoking in all cars is supported by 67% of adults in Yorkshire & the Humber and opposed by just 14%. Smoking in cars results in concentrations of toxins much higher than are normally found elsewhere – up to 11 times higher than you used to find in the average smoky pub.⁹

Yorkshire & the Humber support for banning smoking in all cars

Tobacco retail licensing

84% of adults in Yorkshire & the Humber support the introduction of a licence to sell tobacco which can be removed if retailers are caught more than once selling to underage smokers, with only 2% opposing.

Yorkshire & the Humber's support for tobacco retail licensing in England

In 2019, public belief in tobacco companies offers of help was extremely low in Yorkshire & the Humber¹⁰

Tobacco manufacturers increasingly claim they want to help people stop smoking and are trying to influence public health policy, for example by offering funding in exchange for relaxing of advertising regulations on new products.¹¹ The public understands the tobacco industry are not to be trusted: only 4% of adults in Yorkshire & the Humber agree with the statement: 'I believe tobacco companies when they say they want to help people quit smoking'

Yorkshire & the Humber: 'I believe tobacco companies when they say they want to help people quit smoking'

1 All figures, unless otherwise stated, are from YouGov Plc Smokefree Britain Survey 2020. The total sample sizes was 10749 adults in England. The unweighted sample for Yorkshire & the Humber was 1023. Fieldwork was undertaken between: 17th February 2020 to 11th March 2020. The survey is carried out online. The figures have been weighted and are representative of all GB adults (aged 18+).
