

The Smokefree Great Britain Survey 2021¹

Public Opinion in London

In 2019, [12.9% of people in London](#) continued to smoke. Smoking kills around [11,200 people a year](#) in London.² It remains [the leading cause of preventable illness and premature death in England](#).

In 2021, London supported Government action to tackle tobacco

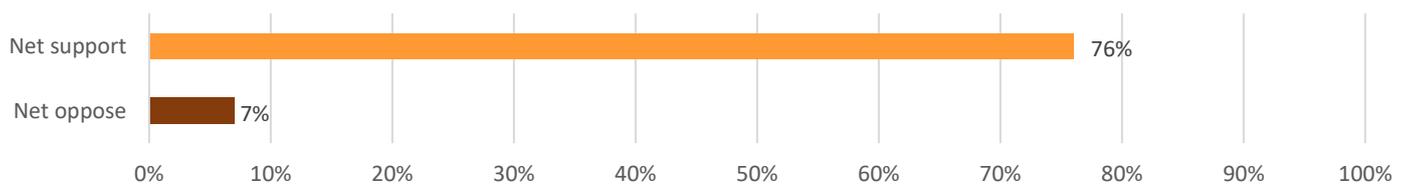

- Four fifths (80%) of adults in the East of England support activities to limit smoking or think the government could do more.
- 4% of adults in London think the Government is doing too much (3%) or far too much (1%).
- In London, the proportion of respondents who think the Government could do more to limit smoking has grown substantially from [26% in 2009](#) to 43% in 2021.
- 76% of people in London support the Government's ambition to reduce smoking prevalence to less than 5% (fewer than 1 in 20 people) by 2030 with just 6% opposing.

What further action should be taken to tackle tobacco?

A levy on tobacco manufacturers

Adults in London strongly support tobacco manufacturers being required to pay a levy to Government for measures to help smokers quit and prevent young people from taking up smoking. 76% of adults in London support this, with only 7% opposing it.

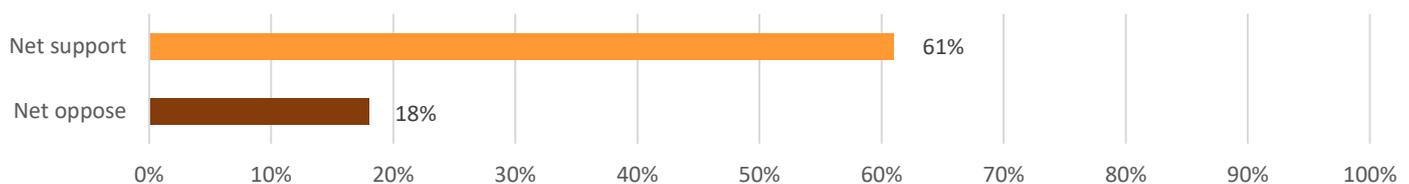

London's support for a tobacco levy paid by tobacco manufacturers to Government

Increasing the age of sale from 18 to 21

The majority of adults in London support increasing the age of sale for tobacco from 18 to 21, with few opposing it. There is [good evidence](#) that raising the age of sale of tobacco to 21 will have a substantial positive impact on public health and save lives.

Pack inserts

Seven in ten (71%) adults in London support requiring cigarette packs to include inserts with Government mandated information about quitting, compared to 6% who oppose it. [Research from Canada](#), where pack inserts are used, shows they have been effective in promoting quitting, whilst [UK research](#) shows use of such inserts is supported by smokers diverse in age, gender, and social grade.

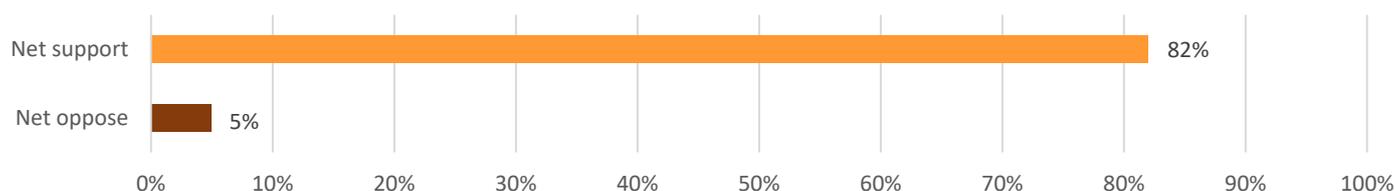

London's support for cigarette packs to include inserts with Government info about quitting

Tobacco retail licensing

82% of adults in London support the introduction of a licence to sell tobacco which can be removed if retailers are caught more than once selling to underage smokers, with only 5% opposing.

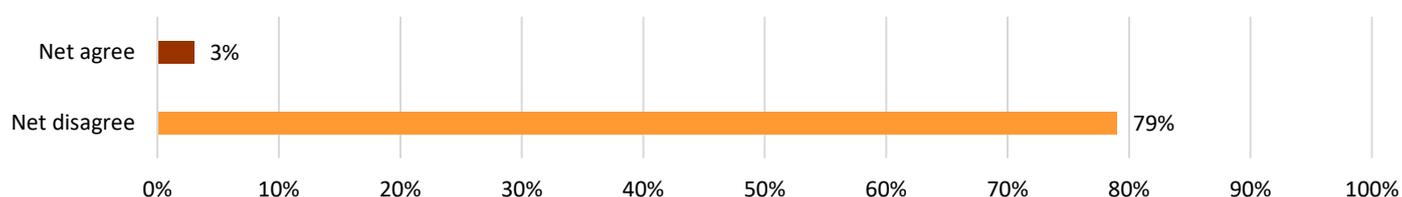

London's support for tobacco retail licensing in England

In 2019, public belief in tobacco companies offers of help was extremely low in London³

Tobacco manufacturers increasingly claim they want to help people stop smoking and try to influence public health policy, for example [offering funding for the relaxing of advertising regulations on new products](#). The public understands the tobacco industry are not to be trusted: only 3% of adults in London agree with the statement: 'I believe tobacco companies when they say they want to help people quit smoking'.

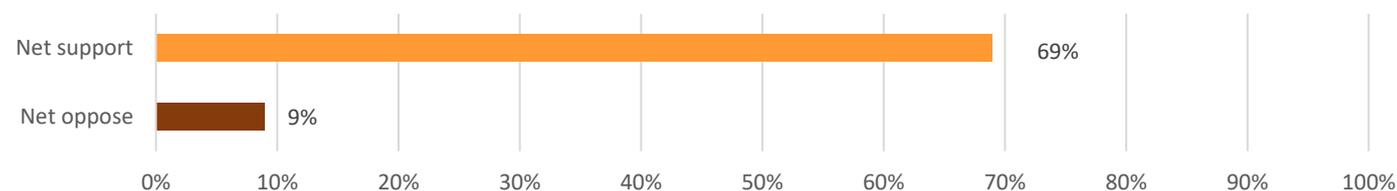

London: 'I believe tobacco companies when they say they want to help people quit smoking'

Dissuasive cigarettes

Two thirds (69%) of adults in London support the introduction of health warnings printed on cigarette sticks, with only 9% opposing. In a [2020 study](#) of 600 people, 84-91% said they would not try dissuasive cigarettes.
